

Anti-feminist groups affiliated with the lawsuits

JWI teleconference handout June 2009

Dr. Molly Dragiewicz

- These are sorted by case, but there is significant overlap in membership of the groups involved across cases.
- Some are archived links. (You can open many links to older versions of web pages and now defunct pages at <http://www.archive.org/index.php>). I have posted other older documents on my website so there is a stable link.
- Many of the plaintiffs and group members have been involved in multiple organizations and court cases that are easily located using any of the internet search engines, state court websites, or legal search engines. I have only posted a few here.
- Feminism is an umbrella term for a number of political orientations, but the common thread is the call for women's human rights <http://www.un.org/womenwatch/daw/cedaw/text/econvention.htm> and the recognition of gender as a central organizing category in human experience <http://www.mollydragiewicz.com/Fishman.pdf>
