

Technology and Domestic Violence

Recommendations for Australia

Education

Education and training for telco and platform staff, police, courts, and students were a high priority.

Assistance

Survivors and domestic violence workers need assistance checking privacy settings, contacting corporations, investigating crimes and, changing and unlisting numbers.

Resources

Survivors need replacement devices, mobile credit, in-person security checks, and reliable mobile service.

Regulation

Regulation is needed to provide universal hardship assistance, inform consumers about their data, prevent hidden tracking, and report on compliance.
